Covernor Caldwell and the Negroes. Governor Caldwell amused his sable auditors, and gained the applause of the "groundlings," in his speech in this city on Thursday night, by denouncing those editors who had charged him with neglect of duty in not using the militia to arrest the Lowreys. He asserted that the last Legislature had taken all authority from him over the militia. Many of his negro hearers knew it was false, for they belonged to a militia company which had been armed and equipped by the Governor and its officers commissioned by him. But they applauded just the same, and the Governor enjoyed the joke highly. But "Brutus is an honorable man."
